

Schulich School of Business Faculty Council Meeting March 15, 2013 11:30am-12:00pm E111 Schulich School of Business	
Agenda Item	Notes
Strategic Research Plan –Draft (slides presented by R. Haché)	<p>VPRI Rob Haché welcomed Faculty members. Indicated that the draft SRP has been circulated to the Faculty and invites comments and discussion.</p> <p>R. Haché presented a series of slides outlining the outline of the draft Plan, including the broad research themes, opportunities for the development of research, and highlighted particular references to Schulich within the Plan. Emphasized that the two main components of the Plan – telling the story of York research by highlighting the scope and scale of research we do at York; and the strategic focus on areas of opportunity for the development of research. Underscored continued investment and support for our identified areas of research strength. The Plan will be implemented through collegial discussion with Faculties on a continuing basis – recognizing institutional objectives and aligning and intersecting with Faculty objectives, working towards realizing ambitions. VPRI, through the suite of research supports, will empower Faculties and Units to respond to the areas for opportunity for the future development of research.</p> <p>Encouraged continued feedback as we work towards finalizing the document.</p> <p><u>Comments & Clarifications:</u></p> <ul style="list-style-type: none"> -Expressed pleasure at identifying Schulich research with the Plan’s themes – however suggested that some of the more traditional areas of Schulich research strength are not reflected -Clarified that this has not been done deliberately but rather reflects the feedback we have received up to now. Suggested that submitting feedback regarding the gaps in research as we are keen to capture the full scope of research at York. -Inquired about how the Plan will be supporting the Faculty researchers -Clarified that the VPRI has developed a variety of tools and supports provided to researchers to enable their research ambitions. <p>-R. Haché thanked the Schulich Council members for their comments and encouraged further feedback to: barbb@yorku.ca</p>
