

Turnitin

<p>WHAT IS TURNITIN?</p>	<p>Turnitin is a comprehensive plagiarism prevention system that allows you to quickly check your students work. Turnitin Digital Assessment Suite includes Gradebook, a flexible online grading system, and Peer Review, an area where students can review each other's work. www.turnitin.com</p>
<p>HOW DOES IT WORK?</p>	<p>Every paper submitted to Turnitin is checked against a database of current and archived internet content, as well as a comprehensive list of millions of previously submitted student papers. The papers are returned in the form of an originality report that identifies the cause of plagiarism so that educators can address and solve the problem.</p>
<p>TURNITIN IN EDUCATION</p>	<p>Turnitin can be used early in the writing process so that students can submit rough drafts and identify early problems with plagiarism or paraphrasing. Teachers can use Turnitin to teach students about academic honesty and improve writing skills. Grademark can be used to track progress over the school year and cut down the time it takes to mark papers.</p>
<p>Turnitin Plagiarism Prevention Training Videos Turnitin</p>	<p>http://www.turnitin.com/static/training.html</p> <p>This is a series of videos that provide training on the use and implementation of Turnitin Digital Assessment Suite for students, teachers, and administrators.</p>
<p>Grand Erie School District Helps Secondary Schools Tackle Plagiarism Turnitin</p>	<p>http://turnitin.com/static/pdf/success_stories_erie.pdf</p> <p>This article explains how Turnitin has been applied to an entire school district and tailored to meet the specific demands of each school.</p>

<p>HOW DO I REQUEST TURNITIN?</p>	<p>To request the use of Turnitin, please log onto the website at www.abelearn.ca and select Tools. Launch ABEL Tools and select Resources/information. From here select Turnitin Digital Assesment Suite and click on Request an Account. Fill in the text box with your information and press Submit.</p>

The Advanced Broadband Enabled Learning Program (ABEL) strives to improve results through its virtual community for sharing knowledge and collaboration and its professional learning program. Through both public and private sector partnerships, and a research based approach, ABEL integrates new and existing information communication technologies (ICT) in teaching and learning. The combination of its networks, partnerships and a focus on research results in innovative models for teaching and learning that drive institutional change and create new opportunities.
