

Change to Program/Graduate Diploma Academic Requirements Proposal Form

The following information is required for all proposals involving a minor modification to program/graduate diploma academic requirements. To facilitate the review/approval process, please use the headings below (and omit the italicized explanations below each heading).

1. Program/Graduate Diploma: Masters of Supply Chain Management (MSCM)

2. Effective Session of Proposed Change(s): Winter 2020

3. Proposed Change(s) and Rationale

Replacing OMIS 6320 Enterprise Information Systems with a new course OMIS 6320 1.5 Managing New Supply Chain Technology

a) A description of the proposed modification(s) and rationale, including alignment with academic plans.

The new course replaces the old course which was focused on training students to cope with one specific supply chain impacting technology, enterprise information systems. Subsequent feedback on the needs of the overall MSCM program requires students to develop a broader managerial approach to supply chain technology, its adoption and implementation, which would include enterprise information systems. The new course better fulfils the objective of the new program.

b) An outline of the changes to requirements and the associated learning outcomes/objectives, including how the proposed requirements will support the achievement of program/graduate diploma learning objectives.

This aligns with learning objectives of the Master's program (see the attached curriculum map in Appendix 1.)

c) An overview of the consultation undertaken with relevant academic units and an assessment of the impact of the modifications on other programs/graduate diplomas.

This does not impact other academic programs. The MSCM is being offered for the first time in May 2019 so there is no impact on current students, instructors and scheduling. The new course is the same course load (1.5 hours) as the course being replaced and will occupy the same position in the program (e.g., third term of full time program).

d) A summary of any resource implications and how they are being addressed.

No additional resources are required that are specific to this course.

e) A summary of how students currently enrolled in the program/graduate diploma will be accommodated.

The program does not admit its first cohort till May 2019. This does not substantively change what has been communicated to prospective students as to the content and workload for the program.

4. Calendar Copy

Using the following two-column format, provide a copy of the relevant program/graduate diploma requirements as they will appear in the FGS Calendar - <http://gradstudies.yorku.ca/current-students/regulations/program-requirements/>.

Please note: Senate requires that FULL Calendar copy be provided. Please include the entire graduate program/diploma section, not just text that is being revised.

Please clearly and visibly indicate how graduate program/graduate diploma information has been changed using strikethrough (left column), bold, underlining, colours, etc. (right column).

Existing Program/Graduate Diploma Information (change from)	Proposed Program/Graduate Diploma Information (change to)
No change required.	

Please submit completed forms and required supporting documentation by email to the Coordinator, Faculty Governance– fgsgovrn@yorku.ca
