

Disaster & Emergency Management PhD

York University's newly established PhD in Disaster & Emergency Management is the first such program in Canada. Our scholars - and the knowledge they produce will contribute to developing theory and practice that will help those in Canada and around the world reduce the negative impacts of disasters and emergencies.

Details of Degree

- 4-5 years
- Part time available

Program Highlights

- The program takes both a theoretical and problem oriented approach to Disaster and Emergency Management — exploring beyond simple cause and effect models to consider the complex interactions between our environmental, social and technological systems.
- You can look forward to stimulating seminar classes, one-on-one advising, and working closely with faculty distinguished in their fields of research.
- As your degree progresses, mentorship and development increasingly focus on supervisor guidance and independent research.
