

Nursing: Primary Health Care Nurse Practitioner

Master of Science in Nursing (MScN - PHCNP)

York's innovative Primary Health Care Nurse Practitioners program enables students to provide individuals, families, groups and all types of communities with services such as health promotion, disease and injury prevention, acute and chronic disease management, rehabilitation and support. Graduates are eligible to write the Canadian Nurse Practitioner Exam Examination: Family/All Ages to qualify as an NP-PHC.

Details of Degree

- Practice-based Research Proposal, (6 terms), Part-time available

Program Highlights

- The Primary Health Care Nurse Practitioner field role is built on the World Health Organization's vision for achieving health for all globally. Principles of primary health care in nursing practice include accessibility to health care; use of appropriate technology; emphasis on health promotion; community participation and empowerment; and intersectoral and interdisciplinary collaboration (International Conference on Primary Health Care, 1978)
