

Concentration in Counselling and Mental Health

The Counselling and Mental Health Concentration is designed to provide students with the foundational knowledge, critical thinking, therapeutic relationship and self-reflection skills necessary for future clinically oriented careers. Students will use empirical research and experiential learning to study the continuum of human psychological experience and the psychological skills, therapeutic relationships and interventions that have been developed to address cognitive, emotional, or behavioural disturbances across the lifespan.

Name: _____ Student Number: _____

Students will be required to complete a minimum of 18.0 credits from the courses listed below. The minimum average GPA across all courses counting towards the Concentration is a C+.
