

HORIZON EUROPE

PRESENTED BY:

TAMARA SONE

NCP COORDINATOR, ISED

OVERVIEW OF HORIZON EUROPE

- The European Commission's new seven-year research and innovation framework program, from 2021-27.
- Total budget envelope of €95.5B (Approximately C\$ 140B).
- Includes EU27, 19 associated non-EU countries and international science partners.
- THREE PILLARS:
 - Pillar 1: Excellent Science
 - Pillar 2: Global Challenges
 - Pillar 3: Innovative Europe

<p>PILLAR 1 Excellent Science</p>	<p>PILLAR 2 Global Challenges</p>	<p>PILLAR 3 Innovative Europe</p>
<ul style="list-style-type: none"> • European Research Council • Marie Skłodowska-Curie Actions • Research Infrastructure 	<ul style="list-style-type: none"> • Clusters: <ul style="list-style-type: none"> • Health • Culture, Creativity and Inclusive Society • Civil Security for Society • Digital, Industry and Space • Climate Energy and Mobility • Food, Bioeconomy, Natural Resources, Agriculture and Environment • Joint Research Centre 	<ul style="list-style-type: none"> • European Innovation Council • European Innovation Ecosystems • European Institute of Innovation and Technology
<p><i>Canadians can participate in most programmes, but Canada is not an associated country</i></p>	<p><i>Canada closed substantive negotiations with the European Commission, towards closer collaboration as an associate member</i></p>	<p><i>Canadians can not participate, except for EIC Pathfinder Open Grants</i></p>

Residents of EU member countries and associated countries can receive funding directly through the programme

BENEFITS OF ASSOCIATION

Greater Access

Canadians can lead projects, receive direct funding and collaborate with European partners and other associated countries in various research and innovation areas.

Open to All

Canadians can currently participate in all Horizon Europe calls that are open to international partners.

New Connections

Innovators will have increased collaboration and networking opportunities.

Increased International Visibility

Provides opportunities for Canadian innovators to showcase their expertise and knowhow on the international stage.

Increased Ability to Shape the Direction of the Programme

Canadians can propose projects and initiate consortia, allowing members of the Canadian research and innovation community to have a greater say in shaping the direction, objectives and outcomes of Horizon Europe projects.

CURRENT STATUS

- ✓ In November 2023, the Government of Canada closed substantive negotiations with the European Commission to increase collaboration under Horizon Europe.
- ✓ Applications from Canadian researchers and innovators can be reviewed as fully associated members of consortia in Horizon Europe Pillar II calls.
- ✓ Canadian entities can also now participate in missions under Pillar 2 under associate country status.

HOW TO APPLY

All project proposals must be submitted through the [Funding & Tenders Portal](#). Additional information can be found on the Canadian Horizon Europe [website](#).

Find a suitable call for proposal

Applicants look for a call that aligns with their work

Search for a partner (if required)

If required, applicants can search for partners either through the funding and tenders website or by contacting a National Contact Point (NCP) for that cluster.

Create an EU login account

To access the Portal applicants must [register and get their account](#). This will allow applicants to participate in a call for proposals or tenders.

Register your organization

Your organization will need a 9-digit Participant Identification Code (PIC) as a unique identifier of your organization.

Submit your proposal

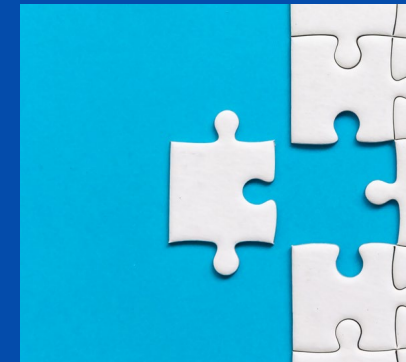

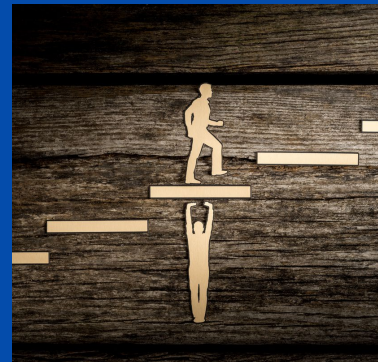

Together with your consortium partners, complete the proposal requirements and submit them electronically.

Follow up on your proposal

An evaluation committee with independent experts reviews the proposals. Following the evaluation, applicants receive a letter informing them about the outcome of their proposal.

FINDING PARTNERS AND COLLABORATORS

Checking individual funding opportunities

If a Horizon Europe funding opportunity is open to collaborations, the Funding and Tenders [website](#) will include a list of organizations that have expressed an interest in collaborating.

Using the partner search tool to find partners

The “how to participate” tab on the Funding and Tenders [website](#) lists all organizations that have expressed an interest in collaborating on a Horizon Europe funding opportunity.

Using CORDIS to find partners

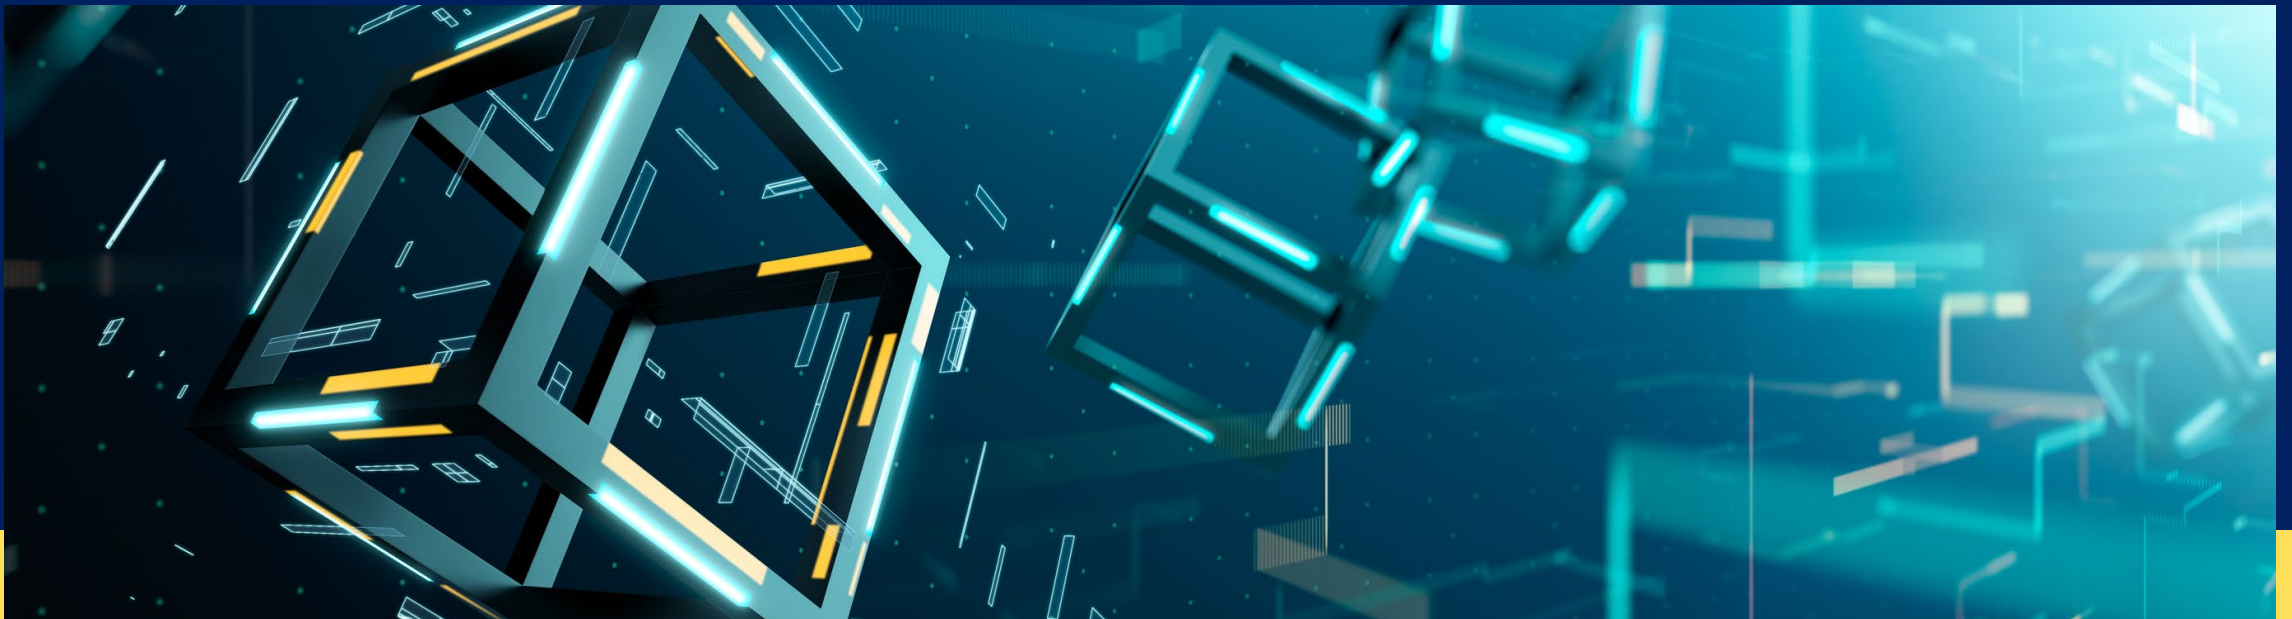

[CORDIS](#) is a website where you can access comprehensive information about EU Research & Development projects. Using this tool, you can find organizations that have worked on Horizon Europe projects in the past

NATIONAL CONTACT POINTS

National Contact Points (NCPs) are the main structure to provide guidance, practical information and assistance on participation in Horizon Europe.

They are the subject matter experts in their field and have a strong awareness of domestic and international expertise in their cluster.

CANADIAN NCPs

Role	Name	Email
NCP Coordinator	Tamara Sone	tamara.sone@ised-isde.gc.ca
Cluster 1 (Health)	Berry deBrujin	berry.debruijn@nrc-cnrc.gc.ca
	William McRae	william.McRae@nrc-cnrc.gc.ca

CANADIAN NCPs

Role	Name	Email
Cluster 5 (Climate, Energy and Mobility)	Stephanie Janetos	stephanie.janetos@ec.gc.ca
	Brian Smith	brian.smith@ec.gc.ca
	Moses Iziomon	Moses.Iziomon@tc.gc.ca
	Carlos Levy	Carlos.levy@nrc-cnrc.gc.ca
Cluster 6 (Food, Bioeconomy, Natural Resources, Agriculture and Environment)	Andrea (Andi) White	andrea.white@dfo-mpo.gc.ca
	Carol Adly	carol.adly@dfo-mpo.gc.ca
	Lynn Fortin	Lynn.Fortin@agr.gc.ca
	Aimee Beboso	Aimee.Beboso@agr.gc.ca
	Paula Esber	paula.esber@inspection.gc.ca

NEXT STEPS

- ➔ Canadian researchers and innovators' applications to Pillar II calls will be reviewed by the European Commission.
- ➔ Awards can only be provided once the treaty is provisionally applied.
