SDG 8 – Decent Work and Economic Growth

8 DECENT WORK AND ECONOMIC GROWTH

SDG 8 - Decent Work and Economic Growth plans to promote sustainable, inclusive and sustainable economic growth around the world. This economic growth must be equitable and create decent and fulfilling jobs while protecting labour rights and ending exploitative business practices.

As an anchor institution in our local community and ranked as one of Canada's top employers, York University prides itself on its sustained economic output and its promotion of entrepreneurship. Home to the top ranked [Schulich School of Business](#), York has a strong offering of courses relating to SDG 8. These courses include those in business administration, sustainable procurement, finance, accounting, advertising, macro & microeconomics, labour studies, and entrepreneurship.

COURSE TITLE	FACULTY	SUBJECT	CODE	CREDIT	DESCRIPTION	LANGUAGE	PRIMARY SDG	SECONDARY SDG	ANCILLIARY SDG
Introduction To Financial Accounting I	Schulich School of Business	ACTG	2010	3	This two core course sequence develops students' understanding of financial accounting information so that they can be informed and effective users of the information. The courses focus on uses of accounting information for different decisions and from different stakeholder perspectives, and consider the economic and behavioural effects that accounting treatments have on users and preparers. Readings from current publications are used to demonstrate practical applications of the issues discussed in class. Classroom techniques such as case studies, classroom discussions, student presentations and group and individual research projects (intended to develop students' critical skills) are employed. Note: SB/ACTG 2011 3.00 is not available to exchange students visiting Schulich unless it is a full year exchange and SB/ACTG 2010 3.00 is taken in the fall. Course credit exclusions: GL/ECON 2710 3.00, AP/ECON 3580 3.00, AP/ECON 4200 3.00.	en	SDG 8 Decent Work and Economic Growth		
Intermediate Financial Accounting II	Schulich School of Business	ACTG	3120	3	This is an extension of SB/ACTG 3110 3.00, but with a primary focus on the valuation and presentation of liabilities and owners' equity. Major topics include current, long-term and contingent liabilities; leases; pensions; corporate income tax allocation; capital transactions, earnings per share and analysis of financial statements under differing accounting policies. The criteria by which both preparers and users make decisions are emphasized. Note: Not available to exchange students visiting Schulich. Prerequisite: SB/ACTG 3110 3.00.	en	SDG 8 Decent Work and Economic Growth	SDG 10 Reduced Inequalities	
Intermediate Financial Accounting for Finance Majors	Schulich School of Business	ACTG	6130	3	This course is meant specifically for non-accountants who want a broader understanding of accounting issues and how they impact financial statements. This course covers both sides of the balance sheet focusing on understanding the impact of the issues on the financial statements instead of the detailed technical application. This course is not recognized as a course by the accounting designations. Prerequisite: for MBA and IMBA students: SB/ACTG 5100 3.00 or equivalent; for MF students: SB/MFIN 5100 3.00. Course credit exclusions: SB/ACTG 6120 3.00 and SB/ACTG 6140 3.00 (either SB/ACTG 6130 3.00 or SB/ACTG 6120 3.00 and SB/ACTG 6140 3.00).	en	SDG 8 Decent Work and Economic Growth

Financial Reporting and Analysis	Schulich School of Business	ACTG	6250	3	Examines why stock prices react when firms announce their earnings, and why certain trends in industry earnings affect stock prices of many firms in that industry. Under highly stylised Generally Accepted Accounting Principles (GAAP), abnormal accounting earnings of a firm can be discounted to derive an estimate of the share price. This course therefore offers a direct link between accounting policy choices, abnormal earnings (based on adjusted reported earnings) and stock price valuation. Prerequisite: SB/ACTG 5100 3.00. Prerequisite: SB/ACTG 5101 3.00 (previously offered as SB/MACC 5101 3.00) for students pursuing the Schulich Diploma in Intermediate Accounting (DIAC). Course Credit Exclusion: SB/FINE 6600 3.00 (either SB/ACTG 6250 3.00 or SB/FINE 6600 3.00, but not both, may be taken for credit).	en	SDG 8 Decent Work and Economic Growth		
Overview and Current Developments	Faculty of Graduate Studies	ADLW	6740	6	Explores current developments, foundational rules and principles in administrative law in several areas including public health and safety, immigration, labour, social benefits, securities regulation, business licensing and approvals, broadcasting, and environmental protection.	en	SDG 8 Decent Work and Economic Growth	SDG 16 Peace, Justice and Strong Institutions	
The Anthropology of Tourism	Faculty of Liberal Arts & Professional Studies	ANTH	3120	6	Explores the sites/sights of tourist practice. Beginning with an historical analysis of tourism in relationship to European colonial expansion, we then consider the cultural significance of contemporary tourism both at home and abroad.	en	SDG 8 Decent Work and Economic Growth		
Greed, Globalization and the Gift: The Culture of Capitalism	Faculty of Liberal Arts & Professional Studies	ANTH	3220	6	Examines capitalist enterprise historically and ethnographically. It focuses upon forms of corporate capitalism; the historic spread of capitalism and the world system; globalization; and the failure of neo-liberal development to deliver economic prosperity.	en	SDG 8 Decent Work and Economic Growth		
Methods In Social Anthropology	Faculty of Graduate Studies	ANTH	5020	3	Provides a general overview of research methodology. Its primary focus is on the nature of anthropological field work and the traditional data gathering techniques which flow from our role as participant observers. Lectures and class discussions are supplemented by practical exercises in interviewing, census taking, questionnaire construction and the use of computers. The course examines the multi-faceted role of the field worker in the context of the rapidly changing social reality within which modern anthropological research takes place.	en	SDG 8 Decent Work and Economic Growth

The Artist and the Modern Museum	School of Arts, Media, Performance & Design	ARTH	4620	3	Recent artistic responses to the modern art museum as providing the context for the consumption of art suggest that the museum may be a dying institutional form. The work of Buren or Broodthaers, for instance, questions the autonomy of art by exposing its reliance or involvement with the museum as its institutional ground. The construction of the category of "artist" in the 19th and 20th centuries is addressed as well as the relations between the "high art" product and the museum as the site of its consumption, display and authorization. Prerequisite: FA/ARTH 2620 6.00 (or period study equivalent) and permission of the course director.	en	SDG 8 Decent Work and Economic Growth		
Arts, Media and Entertainment: Managing Strategic and Business Solutions in the Digital Media Universe	Schulich School of Business	ARTM	6360	3	The rapidly changing global digital media economy is creating new business models for the Arts, Media and Entertainment sector. This course examines how such models draw on management, creative and policy resources in radically different ways. Students will acquire knowledge and insights to manage digital media's needs for creativity, entrepreneurship, measurement, financial structures and monetization in large and small organizations.	en	SDG 8 Decent Work and Economic Growth		
Advanced Banking Law	Faculty of Graduate Studies	BFSL	6914	3	This course covers the fundamentals of banking and financial services law. It is designed to provide students with an overview as to the function of banking and the legal framework that governs banking institutions, their operations and principal transactions.	en	SDG 8 Decent Work and Economic Growth	SDG 16 Peace, Justice and Strong Institutions	
The Financial Services Industry and the Public Interest	Faculty of Graduate Studies	BFSL	6923	3	Against the background of technological innovations, globalization and increased demand for social responsibility that have changed the face of the financial services industry, this course deals with selected legal aspects governing public interest issues. The course covers customer protection (particularly as to privacy), dispute resolution and competition in a paperless cross border environment. It also examines moral and legal aspects of the social responsibilities of financial institutions.	en	SDG 8 Decent Work and Economic Growth	SDG 16 Peace, Justice and Strong Institutions	
Online International Business Transactions: Theory, Law, and Practice	Faculty of Graduate Studies	BLIS	6409	6	International Business Transactions uses case studies to analyze international business transactions including: forming the contract, financing and payment techniques, and identifying and addressing barriers to contract fulfillment. Examples include the study of import/export of goods and services, technology transfers, joint ventures and foreign direct investment. The course addresses the challenges of trans-border electronic transactions and doing business on the internet. The online nature of this course permits the students to engage in activities that simulate the remote, asynchronous nature of real-life cross-border, multi-party business transaction negotiation and documentation. Regular group work, problem-based learning, practical exercises, and research and writing assignments are required at key points during the course.	en	SDG 9 Industry, Innovation and Infrastructure	SDG 8 Decent Work and Economic Growth

Canada in Global Perspective/Le Canada, perspective globale	Glendon College	CDNS	3621	3	This course will examine the impact of globalization on Canada and Canadians. It will focus on international economic forces and the influence they exert on the Canadian economy, on domestic politics and on social relations within Canada./Le cours examine l'impact de la mondialisation sur le Canada et sur les canadiens. Il explore principalement les forces économiques qui sont en jeu et l'influence qu'elles exercent sur l'économie canadienne, sur la politique nationale et sur les relations sociales à l'intérieur du pays.	fr	SDG 8 Decent Work and Economic Growth		
Advanced Chinese for Business	Faculty of Liberal Arts & Professional Studies	CH	4050	6	The course deals with the specialized language of business-related subjects, including business etiquette. Materials include a text of formal conversations on typical business transactions, newspaper and journal articles, as well as TV news broadcasts on foreign trade and economic development. Prerequisites: AP/CH 3000 6.00, AP/CH 3010 6.00, or equivalent, or permission of the Department.	en	SDG 8 Decent Work and Economic Growth		
Freight Transportation	Lassonde School of Engineering	CIVL	4034	3	CIVL 4034 Freight Transportation builds on core transportation courses by adapting the concepts and theories of passenger transportation to the realm of freight transportation with an emphasis on truck patterns. This topic is regionally important given the prominent role of nearby Peel Region as the largest Canadian hub for freight. The course will cover topics such as traditional freight modelling assumptions, the demand for goods movement arising from economic markets, trip generation models, truck movement models such as truck tours, societal impacts of freight, and future impacts of connected and autonomous (CAV) vehicles. In addition, the course will introduce students to optimization problems such as the transportation problem, p-median, and capacitated plant. Prerequisites: LE/CIVL 3250 3.00 or LE/CIVL 3260 3.00	en	SDG 8 Decent Work and Economic Growth	SDG 11 Sustainable Cities and Communities	
Transportation Planning and Evaluation	Lassonde School of Engineering	CIVL	3260	3	This course introduces students to the major theories, principles and methods used in the field of transportation planning and evaluation. Under transportation planning, the course considers how transportation planners and decision-makers have historically analyzed the way people and goods move around cities. This includes an examination of the four-step travel demand model (the most widely used model) giving emphasis to the analytical techniques used to forecast future daily traffic demand on a roadway network. Under transportation project evaluation, the course presents fundamental concepts for the economic evaluation of roadway infrastructure improvement projects. Emphasis is placed on user and non-user costs with additional applications of lifecycle cost analysis, benefit-cost analysis, and the integration of these tools to support effective decision making. Prerequisites: LE/ENG 2001 3.00; LE/CIVL 3160 3.00 or LE/CIVL 3250 3.00. Course Credit Exclusion: LE/CIVL 4032 3.00.	en	SDG 9 Industry, Innovation and Infrastructure	SDG 11 Sustainable Cities and Communities	SDG 8 Decent Work and Economic Growth

Early Cinema to the Coming of Sound: 1895 - 1930	School of Arts, Media, Performance & Design	CMA	2200	3	Examines the emergence of cinema as a technology, cultural experience, economic structure, and means of artistic expression. Prerequisite: FA/CMA 1400 9.00 or 6.00.	en	SDG 9 Industry, Innovation and Infrastructure	SDG 8 Decent Work and Economic Growth	
The Political Economy of Culture and Communication	Faculty of Graduate Studies	CMCT	6300	3	This course reflects the theoretical perspective that communication systems and cultural practices shape and are shaped by the social distribution of power in all societies. It examines the role of the state, the market and civil society in the production and distribution of cultural products and the implications of their relationships for society.	en	SDG 8 Decent Work and Economic Growth	SDG 1 No Poverty	SDG 11 Sustainable Cities and Communities
Labour in the Communication and Cultural Industries	Faculty of Liberal Arts & Professional Studies	COMN	3213	3	This course analyzes labour in the communication and cultural industries (including journalism, broadcasting, creative labour and cyber-work) by the examination of the historical constitution, present institutions, and current practices organizing labour in these industries. Course credit exclusion: AP/COMN 3313 3.00 (prior to Fall 2012).	en	SDG 8 Decent Work and Economic Growth		
Advertising: Media and the Development of Consumer Culture	Faculty of Liberal Arts & Professional Studies	COMN	3700	3	The course approaches advertising as a privileged form of communication and as central to development of the media. This course will explore the emergence of consumer society and the social, political, and economic roles of advertising within this development with particular focus on how the promotional discourses of advertising have become entrenched in our culture. Course credit exclusion: AP/COMN 3315 6.00 (prior to Fall 2012).	en	SDG 8 Decent Work and Economic Growth	SDG 12 Responsible Consumption and Production	
Young People's Media In Canada	Faculty of Liberal Arts & Professional Studies	COMN	3725	3	Explores the production of media for young people here in Canada. Canada has a long history of producing media texts for children and youth. Our children's television, film, music, magazine and videogame industries are rich and diverse, and are exported around the world. Yet, despite this richness and depth, the story of Canadian children's and youth media industries has not been told. The purpose of this course is to overcome this deficit by undertaking an in depth political economic analysis of the history of young people's media industries in Canada.	en	SDG 8 Decent Work and Economic Growth		
NetWork: Digital Labour, Profit, and Exploitation	Faculty of Liberal Arts & Professional Studies	COMN	4206	3	This course familiarizes students with debates about and theories used in the analysis of labour in the "information society." Labour and "social" media, open source software, media piracy, and other contemporary internet phenomena are all areas that are analysed with respect to their role in the reproduction of capital and attendant forms of exploitation, domination, repression, resistance, and subversion.	en	SDG 8 Decent Work and Economic Growth	SDG 16 Peace, Justice and Strong Institutions	
Cultural Industries and Work	Faculty of Liberal Arts & Professional Studies	COMN	4270	3	This course will examine cultural industries, exploring from a historical perspective the ongoing transformations that are shaping the way media, culture and communication are produced and consumed in the contemporary global economy. Particular emphasis will be given to the effects of these transformations on the nature of work in the cultural industries. Course credit exclusions: None.	en	SDG 8 Decent Work and Economic Growth

Apprendre en faisant / Less reading, more doing: Work placement/placement en milieu de travail I	Glendon College	COMS	3800	3	This internship gives students the opportunity to gain work or research experience outside the University, in Canada or abroad, during one semester. Students must work a minimum of 80 hours. A faculty member supervises and grades the internship. Course credit exclusions: GL/COMS/TRAN 3900 3.00.	en	SDG 8 Decent Work and Economic Growth		
De la carte au territoire - From map to territory: Work placement/placement en milieu de travail II	Glendon College	COMS	4800	3	This internship gives students the opportunity to gain work or research experience outside the University, in Canada or abroad, during one semester. Students must work a minimum of 120 hours. A faculty member supervises and grades the internship.	en	SDG 8 Decent Work and Economic Growth		
Internship Work Term	School of Arts, Media, Performance & Design	DATT	3929	0	Provides qualified students with the opportunity to work in an internship work term. Prerequisites: Only open full-time students in the Digital Media Specialized Honours BA program with a minimum of 9 credits remaining to graduate prior to the start of the internship. FA/DATT 3700 6.00, FA/DATT 3701 6.00, or FA/DATT 3936 3.0; and LE/EECS 2011 3.0. Must be in good standing in the program.	en	SDG 8 Decent Work and Economic Growth		
Design of the 20th Century: Icons, movements and contexts	School of Arts, Media, Performance & Design	DESN	1111	3	Equips students with the contextual analytical skills required to evaluate a range of key icons and art movements of twentieth century design across the world. Students gain a better understanding of the historical, social, political, cultural, economic, philosophical and aesthetic conditions in the development of design as a creative, cultural and professional practice in this period. Required course for BDes majors.	en	SDG 8 Decent Work and Economic Growth		
Design for Creative Entrepreneurship	School of Arts, Media, Performance & Design	DESN	4122	3	Equips students with the skills and knowledge needed to articulate a strategy for design entrepreneurship that supports a product idea. Students formulate a plan of values for targeted market segments and define the terms that outline their represented market. It introduces concepts, strategies and iterative practices to familiarize students with business planning, price points and cost calculations. In addition, the course will cover fundraising basics, crowdsourcing, team-development and techniques for brand building and marketing in an age of social media, niche markets and intellectual capital. Prerequisite: Third- or fourth-year standing in the BDes Program.	en	SDG 8 Decent Work and Economic Growth		
Design Placement	School of Arts, Media, Performance & Design	DESN	3201	3	Prepares students to launch their careers as designers, improve prospects for employment and to make a meaningful contribution to their profession in design. Full-time participation is required for three weeks in an approved professional design environment. Required course for BDes major. Prerequisite: Third-year standing in the BDes Program. Design for Creative Entrepreneurship	Faculty of Graduate Studies	DESN	5422	3	Equips students with the skills and knowledge needed to articulate a strategy for design entrepreneurship which supports a product idea. Students formulate a plan of values for targeted market segments and define the terms which outline their represented market. It introduces concepts, strategies and iterative practices to familiarize students with business planning, price points and cost calculations. In addition, the course will cover fundraising basics, team-development and techniques for brand building and marketing in an age of social media, niche markets and intellectual capital. Integrated with FA/DESN 4122 3.0.	en	SDG 8 Decent Work and Economic Growth		
Financial and Management Accounting	Faculty of Graduate Studies	DMGM	5040	1.5	Two distinct foundations of accounting exist, financial accounting and managerial accounting. Both have a unique purpose and perspective. Financial accounting serves to create organizational information that can be used to evaluate the financial performance of the organization namely by those external to the organization. Managerial accounting, as the name implies, is the creation of accounting information for internal managerial decision making. Managerial accounting borrows from managerial finance and provides managers with finance tools that assist in decision-making.	en	SDG 8 Decent Work and Economic Growth		
Introduction to Macroeconomics	Faculty of Liberal Arts & Professional Studies	ECON	1010	3	Introduces macroeconomics principles for making smart choices as consumers, businesspeople, investors and informed citizens judging government policies. Focuses on performance of market economies - measured by GDP growth, unemployment, inflation - and roles for government monetary and fiscal policies. Other topics include business cycles, money and the Bank of Canada, exchange rates, government deficits, national debt, globalization and trade policy. Prerequisite: AP/ECON 1000 3.00 or equivalent. Course credit exclusions: GL/ECON 2510 3.00 (prior to Fall 2014), SB/INTL 1210 3.00. <p>Introductory Mathematical Economics I</p>	<p>Faculty of Liberal Arts & Professional Studies</p>	<p>ECON</p>	<p>1530</p>	<p>3</p>	<p>This course presents and analyzes a sequence of basic ideas, topics and problems arising in Economics. For each idea/topic/problem relevant mathematical ideas and techniques are recalled and/or derived so as to provide a deeper understanding of the Economic issue and how it can be resolved, if necessary. The notion of Quantity Demanded is first addressed by expressing quantity demanded as a linear function of price where both the slope and intercept embed important Economics ideas. This sequence leads naturally to the notion of Revenue (the product of quantity demanded and price) where nonlinear functions are analyzed using mathematical techniques that include derivatives. This sequence culminates with notions of prices that maximize revenue subject to a given demand function. A large number of such topic sequences involving univariate functions are examined. Prerequisite: Grade 12U Advanced Functions or equivalent. Prerequisites or corequisites: AP/ECON 1000 3.00 or AP/ECON 1010 3.00, or equivalent. Strongly recommended completion: high-school calculus or equivalent. No Credit Retained (NCR) NOTE: SC/MATH 1510 6.00 and/or SC/MATH 1520 6.00 may not be taken by any students who has passed or is currently enrolled in another university course in mathematics or statistics including AP/ECON 1530 3.00 and AP/ECON 1540 3.00. Course credit exclusions: SC/MATH 1013 3.00, SC/MATH 1300 3.00, SC/MATH 1505 6.00, SC/MATH 1513 6.00, SC/MATH 1530 3.00, SC/MATH 1550 6.00, GL/MATH 1930 3.00, GL/MODR 1930 3.00. Managerial Economics and Strategy	Faculty of Liberal Arts & Professional Studies	ECON	3411	3	Introduces students to the economic concepts and frameworks which the general manager can use to formulate, analyze, and implement strategy. Covers issues pertaining to firms—i boundaries, the economics of the make-versus-buy decisions, the transaction costs of market exchange, and diversification. Additional topics include the theories of competitive strategy such as market and entry strategies and strategic positioning and dynamics. Prerequisites: AP/ECON 2300 3.00 and AP/ECON 3210 3.00 or AP/ECON 3480 3.00.	en	SDG 8 Decent Work and Economic Growth		
Monetary Economics I: Financial Markets and Institutions	Faculty of Liberal Arts & Professional Studies	ECON	3430	3	Studies the principal financial institutions and markets in the Canadian economy. Analyzes the economic function, regulation, and operational features of these institutions and markets. Considers the corresponding institutions and markets in other countries. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusion: GL/ECON 3380 3.00.	en	SDG 8 Decent Work and Economic Growth		
Monetary Economics II: Theory and Policy	Faculty of Liberal Arts & Professional Studies	ECON	3440	3	Studies the central bank and its use of monetary theory to control growth and fluctuations in the Canadian economy through the chartered banking system. Considers links between Canada's financial system and the international financial system, with particular emphasis on the restraining influence of international financial requirements on the attainment of national goals. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusion: GL/ECON 3390 3.00.	en	SDG 8 Decent Work and Economic Growth	SDG 10 Reduced Inequalities	
Intermediate Mathematics for Economists	Faculty of Liberal Arts & Professional Studies	ECON	3530	3	Develops and demonstrates the mathematics commonly used in the analysis of static economic models. Topics range from concavity and convexity to constrained optimization and comparative static analysis including the implicit function and envelope theorems. Prerequisites: AP/ECON 1530 3.00 and AP/ECON 1540 3.00 or equivalents.	en	SDG 8 Decent Work and Economic Growth		
Economic Growth and Development (Writing)	Faculty of Liberal Arts & Professional Studies	ECON	3559	3	Studies the economic problems of poor countries and poor communities. Explores the meaning of development by considering the characteristics of economic underdevelopment, poverty, income and wealth distribution, rural versus urban development, population growth, and unemployment and migration. Additional topics include theories of development, growth and technological change, strategies for environmentally sustainable development, education, and health. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: GL/ECON 3920 3.00, AP/ECON 3550 3.00.	en	SDG 8 Decent Work and Economic Growth	SDG 1 No Poverty	
Economic Policy in Developing Countries	Faculty of Liberal Arts & Professional Studies	ECON	3569	3	Examines policy issues arising from development planning. Topics include agriculture versus industry, international trade, monetary and fiscal policies, foreign investment, foreign aid and self-reliance, and global issues. Apprenticeship Learning and Learning Communities	Faculty of Education	EDST	3200	3	From the early British Guild system to our current high technology, postmodern society, the apprenticeship is central to learning in workplace communities of practice. In this course, apprenticeship learning is considered in relation to exemplary forms of acquiring knowledge/skills, the primacy of pragmatic knowledge/skills, the social distribution of knowledge/skills, and the flexible and changing nature of knowledge and skills. This course also examines this symbiotic relationship between experts, apprentices, and learning communities in private, governmental and social enterprises. Consideration is given to knowledge/skills distribution and social justice issues that arise in hierarchical multiethnic and mixed gender work environments.	en	SDG 8 Decent Work and Economic Growth		
Regulatory Theory	Faculty of Graduate Studies	EIL	6561	6	This course addresses two basic questions: What is regulation; and why do we do it? Both of these questions are critically analysed from legal, economic and political perspectives.	en	SDG 8 Decent Work and Economic Growth		
Competitive Strategy	Schulich School of Business	EMBA	5050	2	Explores the economic principles of business strategy and the relationship between business obligations and the values of the broader social community. The course develops analytic frameworks that incorporate the multiple dimensions of strategic leadership in organizations. Emphasis is placed both on market-related objectives and constraints faced by the organization, and on the relationships that organizations have with the communities with which they are embedded.	en	SDG 8 Decent Work and Economic Growth		
Managing Globally	Schulich School of Business	EMBA	6220	2	The purpose of this course is to familiarize participants with the challenges faced by global managers and identify ways in which they can be mastered successfully. The course is unique in that it uses historical case studies. This does not mean that it is a course about history per se; historical cases are used because they can provide unique insights. The cases cover a wide range of time periods, geographic locations and sectors. While not the primary purpose of the course, the comparison with global business in earlier periods will also help identify the specific features of the current global economy.	en	SDG 8 Decent Work and Economic Growth		
Global Corporate Restructuring	Schulich School of Business	EMBA	6260	4	This is a finance course, which deals with risks and rewards in privately held firms in countries around the world. Intellectual Capital Management	Schulich School of Business	EMBA	6650	2	This course covers the broad agenda of using intellectual capital for competitive advantage. In the knowledge-intensive economy, intellectual assets like human capital, intellectual property, brands, and trademarks are becoming an increasingly important proportion of a firm's total wealth. And yet, most firms do a poor job of managing intellectual capital strategically. In this course, we adopt a "lifecycle" approach to the management of an intellectual asset. This lifecycle covers the creation of the intellectual asset, the codification of the asset in the form of intellectual property (IP), the valuation of intellectual assets, the protection of intellectual assets, and leveraging of intellectual assets.	en	SDG 8 Decent Work and Economic Growth		
Quantitative Methods for Business	Schulich School of Business	EMBA	5060	2	This course is about quantitative methods for business and management applications. It will familiarize participants with basic mathematical tools, such as Differential Calculus and Statistics by applying them to economic problems and strategic decision making. Participants will also learn how to use Microsoft Excel for calculation, illustration and advanced applications.	en	SDG 8 Decent Work and Economic Growth		
The World Economy	Schulich School of Business	EMBA	6010	2	The world economy is undergoing a period of very rapid change. In this course we study the most important business regions in the world, including the US, Europe, Japan, China, India, Russia, Eastern Europe, Latin America, and Africa to provide students with a working knowledge of the economic drivers, challenges and opportunities that are present in these regions. The course also discusses the performance of equity and bond markets and the economic forces underlying oil and other commodities.	en	SDG 8 Decent Work and Economic Growth		
Political Economy: A Global Perspective	Schulich School of Business	EMBA	6065	2	This course is designed to discuss the relationship between China and other countries/regions from both the cultural perspective and political perspective. We will cover the history of the relationship between China and these countries/regions and discuss impacts on world dynamics.	en	SDG 8 Decent Work and Economic Growth		
Entrepreneurial Selling: How Revenue-Responsible Leaders Build Amazing Companies	Schulich School of Business	EMBA	6125	2	This course is designed to help leaders build amazing companies by adopting and embedding the habits of high-performing entrepreneurs and sales executives. Participants will learn skills of high performance and practice building a sales culture to help them and their teams activate the habits that are shown to grow revenue.	en	SDG 8 Decent Work and Economic Growth		
Leading Organizational Transformation	Schulich School of Business	EMBA	6335	2	This course takes the perspective of chief executives who operate at a high and scale. It explores management issues when leading thousands of employees and hundreds of millions in revenue. How do they lead when they are only one person and can't do the work of the organization themselves, and can only steer the course of those who do?	en	SDG 8 Decent Work and Economic Growth

Introduction To Finance	Schulich School of Business	FINE	2000	3	Students learn about investment and financing in this core course. The investment decision allocates scarce resources to projects in the organization, and involves asset valuation, capital budgeting, risk management, working capital management and performance assessment. The financing decision chooses sources of cash to finance the investment decisions and involves capital structure, financial instruments, the risk-return trade-off, financial planning and the cost of capital. Ethical considerations and management in the global context are integrated into these topics. Course Credit Exclusion: AP/ECON 4400 3.00.	en	SDG 8 Decent Work and Economic Growth		
Investments	Schulich School of Business	FINE	3200	3	The course begins with an overview of the investment environment in developed markets, followed by a more in-depth analysis of key investment topics. These topics include modern portfolio theory, asset pricing models, term structure of interest rates, stock and bond portfolio management, evaluation of portfolio performance, and behavioral finance. This course serves as a useful introduction to the Chartered Financial Analyst (CFA) curriculum. Prerequisite: SB/FINE 2000 3.00 Previously offered as: SB/FINE 4200 3.00	en	SDG 8 Decent Work and Economic Growth		
Applications of Data Science in Finance	Schulich School of Business	FINE	3310	3	The focus of this course is on using modern programming to perform statistical analysis as used in finance. Applications include assessing properties of asset returns, testing asset pricing models, conducting event studies, understanding simulation methods and panel data analysis, and modelling volatility, value-at-risk, and time-varying correlations. Students will learn about empirical methods in finance by performing statistical analysis on financial data.	en	SDG 8 Decent Work and Economic Growth		
Behavioural Finance	Schulich School of Business	FINE	3500	3	This course surveys finance topics where psychological factors influence security pricing and financial decisions. Much recent study contradicts the view of classical finance that incorporates fully rational and unemotional agents. This course presents situations in which behavioural biases lead to sub-optimal market outcomes. Students will gain a deeper understanding of state-of-the-art developments in behavioural finance and how they apply to practical settings in security analysis and portfolio selection. Prerequisite: SB/FINE 2000 3.00.	en	SDG 8 Decent Work and Economic Growth		
Fixed Income Fundamentals	Schulich School of Business	FINE	3810	3	Introduces the basic concepts and valuation techniques used in the bond market. The first part of the course covers bond prices and their relationship to the no-arbitrage condition, the term structure of interest rates and its estimation. The next part focuses on determination of present value of different cash flows, valuation of financial instruments and bond portfolio. Prerequisite: SB/FINE 2000 3.00.	en	SDG 8 Decent Work and Economic Growth		

York University 2022 SDG Course Mapping - SDG 8

Personal Finance	Schulich School of Business	FINE	4050	3	Students learn personal financial management both for professional work in the financial services industry and for their own families. Topics include goal-setting, budgeting, taxation, debt management, risk management, insurance, investment principles and practice and retirement planning. Much of the course is based upon realistic problems and cases. Prerequisite: SB/FINE 2000 3.00	en	SDG 8 Decent Work and Economic Growth		
Management Of Canadian Financial Institutions	Schulich School of Business	FINE	4700	3	This course is designed to prepare managers for the newly developing financial services industry. The initial part of the course provides the conceptual background for a broad view of the management function in financial services. The second part of the course develops a generic set of tools for managing return and the various kinds of risk facing managers in this industry. The final part reviews recent adventures and misadventures of industry sectors including: financial regulators, central and chartered banking, trust companies, mortgage loan companies, credit unions and caisses populaires, investment bankers, property and casualty insurers, life insurers and investment funds. Near- and long-term market-size factors are considered including demographics, foreign competition in the Canadian market, as well as the opportunities and threats facing Canadian institutions that venture abroad. Prerequisite: SB/FINE 2000 3.00. Course Credit Exclusion: GL/ECON 3380 3.00.	en	SDG 8 Decent Work and Economic Growth		
Managerial Finance	Schulich School of Business	FINE	5200	3	Provides an opportunity to learn about investment and financing decisions. The investment decisions involve asset valuation, capital budgeting, risk management, working capital management and performance assessment. The financing decisions include the choice of capital structure and financial instruments, the risk-return trade-off, financial planning and cost of capital. Ethical, environmental, and corporate governance considerations are integrated into investment and financing decisions.	en	SDG 8 Decent Work and Economic Growth		
Personal Financial Management	Schulich School of Business	FINE	6050	3	Students learn the concepts and techniques of personal financial management in a thorough and rigorous finance framework. Topics include: goal setting, budgeting, financial intermediation, income tax, risk management, insurance, debt management, home valuation, investments, retirement planning, estate planning and strategic use of personal financial planning in financial institutions.
