

COMPENDIUM – THE PSYCHOLOGY OF AGING

York University Centre for Aging Research and
Education (YU-CARE)

The research produced by YU-CARE members and associates* along the theme of the psychology of aging is impactful at the individual, organizational, and societal levels. Research spans from topics including:

Theme 1: The psychology of aging	2
1.1 THE ROLE OF DRAMA IN AGING	2
1.2 PERCEPTION AND STEREOTYPING OF AGING	4
1.3 THE HUMAN BEING AND THE EXPERIENCE OF AGING	6
1.4 MENTAL ILLNESS, ILLNESS, AND THE AGING EXPERIENCE.....	7

*Authors shown in bold indicate a YU-CARE committee or associate member.

Please click the hyperlink (content highlighted and underlined in blue) at each citation to find each article or abstract.

For more information or trouble accessing links, please contact the YU-CARE Coordinator at
yu_care@yorku.ca.

THEME 1: THE PSYCHOLOGY OF AGING

Research explores the impact of the perception and stereotyping of aging on older adults; the role of mental illness and illnesses in the aging experience; psychosocial components that diversify the aging experience; and the role of drama and art in transforming care practices and the perception of aging by older adults and society.

1.1 THE ROLE OF DRAMA IN AGING
